HONEST-MONEY CAMPAIGN.

Republican Canvass of the State Show Very Small London to the Silverites and Much Larger Gains of Democrats-Meetings, Partisan and Non-partisan.

One of the evidences of the active and efficient work of the Republican State organization which was brought to the attention of Chairman Hanna of the National Committee when Mr. Platt, Mr. Hackett, and Mr. Lauterbach had their talk with him on Saturday was the announcement that a thorough canvass of a good part of the State had been made already to determine the effect of the silver craze on the voters. Mr. Hanna was informed that s hones-to-house canvass had been made in one election district in every Assembly district of the State and that returns had been received from about two-thirds of the canvassers. It every case a district was chosen where the greatest disaffection on the part of Republican voters was reported or anticipated.

The inquiry showed that in these districts one per cent, of Republicans are inclined toward Bryan and six per cent. of Democrats toward McKinley because of the free silver business.

Special reports indicate that good campaign work will lessen the number of disaffected Republicans and increase that of sound-meney McKinley Democrate. The canvass was taken at a time when the campaign of education had not begun and the voters were strongly influby the hurral character of the Bryan nomination.

The promise of a big McKinley plurality in the State, which is found in these figures, Mr. Platt and his lieutenants are sure will be more than fuifilled at the election.

The Plait men are delighted with the reception Mark Hanna gave their leaders. As a veteran Republican politician said yesterday: 'Chairman Hanna has not a peer at meeting

men and treating them in such a way as to make them feel thoroughly at their case. What his merits as a political tactician are I do not know. He has not had the chance to display them. I do know.

chance to display them. I do know, though, that if he has Platt to assist him in planning, as I understand will be the case, they will make a formidable team. I have the best information that this is to be the arrangement, and that Mr. Platt will be a frequent visitor at national headquarters hereafter."

Chairman liackett of the Republican State Committee, who is staying at the Oriental Hotel, Manhattan Beach, said yesterday that it is the purpose of the State organization to begin an offensive campaign at once.

"We propose to be aggressors from the start," said he. "Ours is the right of the case, and we are going to enforce it. No one is to have the opportunity to say that we are on the defensive, for we propose to be aggressive from now until Nov. 3. The meeting which we had hoped to hold under the auspices of the State Committee this week may have to be postponed a few days, but before that is held the sound-money business men of the city will have a big non-partisan meeting, which we will aid and assist in every way possible. We hope and believe we will get ex-President Harrison to talk at our partisan meeting."

Ex-Congressman W. Bourke Cockran, an in-

t our partisan meeting," Ex-Congressman W. Bourke Cockran, an in-Ex-Congressman W. Bourke Cockran, an interview with whom is printed in another column, was also at the Oriental yesterday. He supplemented his interview by saying that the present contest is one of society and olvilization against their worst enemies, and that McKinley stands for society and civilization. In answer to a question he said he is ready to take the stump for McKinley if he is wanted. This announcement, in all probability, insures his selection as one of the orators at the big non-partisan meeting which it is proposed to hold. William Steinway, representing the German sound-money sentiment, is also expected to talk, and a letter is promised from exampor Abram S. Hewitt.

the German sound-money sentiment, is also expected to talk, and a letter is promised from exMayor Abram S. Hewitt.

Dr. E. J. Palmer, who was nominated as one of the Republican Presidential electors from this State, representing the Fifteenth Congress district, has been declared ineligible because he is Quarantine Commissioner. There are several candidates for the vacancy on the ticket. It may be that the Republican State Committee will decide to name some sound-money Democrat of prominence to fill the vacancy, with a view to encouraging Democrata who are opposed to Bryan and his policy of repudiation to vote for McKinley.

Chairman Hanna of the National Committee does not work on Sundays. He spent the latter part of yesterday with his sister, Mrs. J. Wyman Jones, who resides with her husband at Englewood. N. J. He will not leave for Cleveland until next Wednesday.

There is some talk of transferring Sergeant at-Arms Col. H. C. Swords from the New York to the Chicago headquarters.

The employment of clerks and other subordinates for the National Committee has been put into the hands of Secretary Osborne; that is, Gen. Osborne will employ nobody until the selection has been certified by Treasurer C. N. Ilias and National Committeeman Frederick S. Gibbs as satisfactory to them.

All New York applicants for places under the tommittee, therefore, must have the joint recommendation of Mr. Bliss and Mr. Gibbs if they expect to secure employment.

Chairman Hanna will doubtless find that he will have to turn over a great many more details to which he has been giving his personal auporvision to other members of the committee.

Ever since he came to the city he has been besieged by an army of men with ideas, plans, campaign literature, and paraphernalia, which he has been asked to buy on account of the committee.

mittee. Every one of these men has been received by the Chairman.

Although he has not exhausted his store of affability in receiving and conferring with this great army, which is composed largely of cranks, Mr. Hanna has exhausted himself, and he has been advised that he had better get two or three crank buffers if he is to get through the campaign with his life.

The Platt and anti-Platt forces in the Twenty-seventh Assembly district have agreed on a compromise of their differences so far as the election of delegates to the State Convention is concerned. The antis are to have three of the five delegates. The other two are to be, it is

SECRETARY MORION SPEAKS OUT. Speech to His Nebraska Netshbors on the Folly of Free Coinage,

NEBRASKA CITY, Neb., Aug. 2 .- Secretary J Sterling Morton delivered a political speech here last night before a large audience on the financial question. Secretary Morton declared the demonetization of silver in 1873 was done after full discussion. The issue of depreciated silver money caused the hoarding and taking by foreigners of the better gold money. This was the cause of the panic in 1893.

If there was any conspiracy in 1873 against silver there was a crime against the flatboat by the steamboat, and a crime against the steamboat by the railroad, and against the horse by the troiley car and bicycle. People confounded the desire and the demand for more money. There is no demand for more money unless you have something to give in exchange. All desire money. The silver dollar is not mentioned in the act of 1873, but was demonetized in 1853, and the law did no harm nor hinder the circulation of silver dollars among the people. There are plenty of them. Enough to put eighty-five in the hands of every man, woman, and child in the land. On the wholesale and 50 per cent, of the retail business of the country is done without the use of any coin. The mortgage indebtedness of Nebraska is not nearly as large per capita as that of New York.

Mr. Morton added:

"It the silver men carry their point, all who purchase of us will pay us in silver, and all who sell to us will demand gold, and we will have to pay the premium. A silver country is between the upper and nether milistone. The value of commodities is regulated by the law of supply and demand, and this is why silver is now cheap.

"The United States can no more fix the value

and demand, and this is why silver is now cheap.

"The United States can no more fix the value of silver than they can fix the price of corn. If the price of silver can be made permanent, so can the price of all commodities be fixed by international agreement. Value cannot be created by statute. A dollar caunot be made from 50 cents' worth of silver, for a dollar is not built that way. The farmers never knew how badly off they were until told by the walking delegates, whose oratory consists of sixteen parts of wind to one part of fact."

CEASES TO BE A BOLTER.

Negro Domination the Excuse of the New Orleans States for Supporting Bryan.

NEW ORLEANS, Aug. 2.- The New Orleans States, which was one of the first Southern gold standard Democratic papers to bolt the Chicago platform and candidate, announced to-day that it will support Bryan and Sewall, and declares:
"We can see nothing whatever for Southern Democratic ticket. We are confronted on one hand with free silver and other political vagaries. That is had, it is true. But, on the other hand, we are threatened with force bills, a robber system of tariff taxation which has brought upon us all the ills we are now subjected to, and negro domination, an incubus of evil that, if once fixed upon us, we will not be able to throw off in a quarter of a century. That would be intolerable." platform and candidate, announced to-day tha

A Sermon on the Political Situation by the Rev. Dr. MacArthur. The Rev. Dr. MacArthur preached on "Ameri anism or Anarchism-Which?" at last evening's services in Calvary Baptist Church, Fifty-

eventh street, near Sixth avenue. "At the outset," said he, "I shall be obliged to deal in definitions, so that we may know how we are to use terms. Americanism means deection to and preference for the institutions of the United States, Among all the civilized nations of the world the name of America is synonymous with enterprise, inventive genius, industry, prosperity, and freedom. These are understood to be the characteristics of Americanism when at its best But there are characteristics sometimes called American which are foreign-characteristics which do not take root in American soil. The word 'boycott' is one of them. The word is un-American in spirit and origin. The word and the thing it represents ought to stay in the land

that gave them birth. 'Nihilism is another un-American word and expresses an un-American idea. It describes a secret effort to overthrow the existing order of social and political things. At the present time Nihilism means a Russian Nihilist, but we want no Nihillists in this land of ours. We want lib-erty with law, not liberty with license. We do not want either the word or the thing anarchistic. There is an anarchistic state of society when there is no supreme authority. Joseph Pierre Prudhomme was an originator of the principles of anarchy. His definition of property was, 'Property is robbery,' and when he evinced great anxiety regarding the disposition of his wife's property, a notary reminded him of the definition. Prudhomme's answer was: ' Be pleased, sir on such an occasion as this to be a little serious,' and this answer reminds me of the mer who are shouting for free silver. They make provisions in their contracts that everything owing to them shall be paid in gold, and I can

fancy them making some such answer as tha of Prudhomme's. Is there danger of anarchy in this country? I am no mere alarmist. I am too much concerned for this nation's honor, and for that reason I shall rebuke the anarchistic spirit wherever I find it. It is easily found. It is to be found in the platform adopted at Chicago. Says that platform: 'We denounce the arbitrary interference of the Federal authorities in local affairs, and we object to government by injunctions.' There was a man near here who objected to injunctions. He is in Sing Sing now. To understand these declarations of the platform let us go back a little further in the history of Chicago,' and here Dr. MacArthur referred to the Haymarket murders by Anarchists and to the pardoning of the imprisoned Anarchists by Gov. Aligeid.

"The people believed them, and believe now," said Dr. MacArthur, "that he was in sympathy with the rioters who in the summer of 1894 threatened Chicago with anarchy. The Governor did not maintain order. It looked as if anarchy was to triumph and that as if the prophecies of Europeans regarding this country were to be fulfilled. But Mr. Cleveland was prompt to follow Mr. Olney's advice, and Federal troops and Federal courts saved Chicago and maybe the nation.
"In the light of these facts, again read the wherever I find it. It is easily found.

as if the prophecies of Europeans regarding this country were to be fulfilled. But Mr. Cleveland was prompt to follow Mr. Cliney's advice, and Federal troops and Federal courts saved Chicago and maybe the nation.

"In the light of these facts, again read the Chicago platform. Is it not a bid for the votes of voters; is it not an endorsement of the Governor of Illinois? It puts the crown-not of thorns, but of glory—upon the head of that Governor who freed the Anarchists and was in sympathy with the rioters. Is it not anarchistic in its spirit? And its framers are the people who want to rule us! By the grace of God and the votes of the people no sympathizer with anarchy will ever sit in the Presidential chair of the American Republic!

"Now, shall Americanism or anarchism prevail? Is our flag to wave over us, or shall the red flag of sanarchism float over this republic? The Chicago platform threatens the stability of the American republic. The Chicago candidate for the Presidency expresses his entire sympathy with the platform. These are strong words and plain words, and I regret before God that they are as true as they are strong. Are we to revive the Jacobins and Robespierre? Is the Supreme Court to be menaced? Are financial obligations to be repudated? What could be said of me, twenty-six years a pastor in this city, an adopted American citizen sworn to protect the American fag, if I failed to do my part in fighting for the country's honor? Where would be my mailness? What is religion worth if it does not help the Government to pay its debts and give the people honest money? Some people say all this doesn't concern the pulpit. I think there ought to be more religion in politics, and i will do my part to bring more religion into politics between now and election day.

"Is this Republic to go down into destruction at the hands of Anarchists? They have been sowing dangerous seed, but they must not be allowed to reap the harvest. No monarchy will have a hand to strike so quickly at violation of law as will this fr

BISHOP NEWMAN ON HONESTY.

Honcet Men Will Not Favor Stealing by Legislation. Bishop Newman preached at the New York Avenue (Brooklyn) Methodist Church on Sunday morning and evening. At the morning service he took for his subject "Conquerors of the World." Speaking of the high honor of consciousness of duty, Bishop Newman said

that every man owed a duty to his country to his party last, a duty to country first and to his partylast, a duty to country now and forever. "That is patriotism," said Bishop Newman, "and a man is not a worthy citizen who does not have this patriotism." In the evening Bishop Newman dwelt forcibly on the divine prohibition: "thou shalt not Steal." This law, he said, was applicable not merely to highwaymen and burglars, but to all depredations, no matter by whom committed. "There is nothing more sacred than the rights of property, and wose be to him who lays his hands upon it. It makes one's face tingle with shame." Bishop Newman continued, "to think that there should be any portion of our fellow citizens who should lose sight of this great truth. The words, "Thou shalt not steal," should be engraved on the walls of Congress and our Legislatures, It is a shame that, as a people, we are drifting away from those old constitutional decrees."

JUDGE SCOTT ON CLEVELAND.

Me Says He Ras Sent Better Men than the President to Jall. KEARNEY, Neb., Aug. 2.-In a Populist rally here last night District Judge C. R. Scott of Omaha caused a sensation when, in his speech. he classified McKinley and Senator Sherman with Herr Most, and declared that he had sen better men than President Cleveland to the periterinary.

Judge Scott gained notoriety several months ago by ordering newspaper men sent to jail for criticising his course on the bench. He was elected as a Republican, but has recently been advocating Populist doctrines.

WORKING AGAINST MORRILL. A Movement to Defeat His Renomination

in Kanens. TOPEKA, Kab., Aug. 2.-A new move was made public yesterday which has for its object the defeat of Gov. F. N. Morrill for renomination. Most of the delegates to the Republican State Convention, which will meet in this city on Aug. 11, have been elected, and Gov. Morrill is known to have a clear majority over all his

opponents.

A polition addressed to the State Convention is being circulated generally over the State, demanding that Morrill be not placed at the head of the ticket for the reason that he has neglected to enforce the prohibition law. The movement originated in Douglas county, and the petition has already received many Republican signatures.

WON'T SUPPORT BRYAN.

The Burlington Gazette Joins the Sound-money Column,

BURLINGTON, Ia., Aug. 2.—After the Chicago Convention the Burlington Gazette, one of the oldest Democratic papers in the State, announced that it would stand by the Democratic ticket, although free silver was almost too much for it to stand.

Last night, however, it said editorially that although it has fought the battles of Democra-cy for sity-two years, it must now refuse to support the Chicago nominees.

FOR PLATT FOR GOVERNOR

QUIGG AND VAN COTT LAUNCHED THE BOOM TESTERDAY.

There Had Been More or Less Talk of It Before, Which Mr. Pinti Has Trented Lightly-But the Two Beamers Are In Enruest - Aldridge Men Bleconcerted. The Aldridge boom for the Governorship invaded Manhattan Beach yesterday, and the

gentlemen in charge of it were mightily surprised to find another boom installed there as sounding and resonant as their own.

The new boom is the Piatt boom. Platt had not been consulted in the matter, but two of his warmest political friends, Congressman Lemuel Ely Quigg and ex-Postmaster Van Cott,

launched it just the same. For some weeks, in fact ever since the Carne gie Hall meeting at which Mr. Platt made the opening speech of the campaign, there has been more or less talk among Republican leaders about nominating Mr. Platt for Governor. Mr. Lauterbach has said that he would be the idea

candidate for the party.

Ex-Postmaster Van Cott has said that the candidates who had been named were all good men, but that none could compare with Mr. Others had talked in the same strain. All this had been merely tentative however, and no encouragement to the idea ninety and nine other candidates for the nomination that the field was open, and that nonof them would be interfered with by him in the hunt for delegates.

When a reporter of THE SUN told him some time ago that he was being talked about for the nomination he treated the matter as out of the question and much in the nature of a joke.

'I have nothing to say against any other candidate," said Mr. Van Cott at the Oriental Hotel, last evening, "but I do think that the only man for the party to name this year for the office of Governor is Thomas C. Platt. I believe he would draw more votes than any other man we could put up. No matter whom we name, whoever is opposed to Mr. Platt will vote against the candidate anyway, saying that he is voting against Tom Platt. Why not let these men vote against Mr. Platt directly? Their number is not so great after all. I am in favor of Mr. Platt because I believe he could best carry out the policies connected with the creation and government of the Greater New York and other policies which he has formulated as the leader of the party in ast evening, "but I do think that the only man has formulated as the leader of the party in this state. I believe he would make one of the most conservative Governors the State has ever had."

had."
Senator Cornelius R. Parsons of Rochester and Frank W. Hawley of Pittsford were the custodians of the Aldridge boom while it was at the beach. They had heard nothing else but its soothing resonance on their journey through the State along the line of the Eric Canal, and they were greatly surprised and disturbed when the noise of the Platt boom burst on their ears. Congressman Quigg was the first to shock their susceptibilities. Sitting on the verandah of the Oriental Hotel he said to Mr. Hawley and a group of newspaper men:

of the Oriental Hotel he said to Mr. Hawley and a group of newspaper men:
"The sentiment in my district has not crystal-lized so far as relates to any candidate for the nomination for Governor. I can say that I am going to the State Convention though, and that I am in favor of the nomination of Thomas C. Platt. I shall go to the Convention as an advocate of the nomination of Mr. Platt for Governor." Governor."

At the hour when this boom developed the ex-Senator was not to be found to be asked what he thought about it now.

PLATT WINS IN SARATOGA COUNTY. The Opposition Routed at the Republican Caucuses Held on Saturday Night.

SARATOGA SPRINGS, Aug. 2.-Caucuses were neld in every election district in Saratoga county last night to elect delegates to the County Convention, which is called to meet in the village of Ballston Spa on Tuesday next at 12 M. The delegates elected last night will nominate county officers and a member of Asembly, as well as elect delegates to the State and Congress conventions.

The contest for delegates to the County Convention has been going on for the past three months, and has been one of the bitterest ever known in Saratoga county. It has been a fight for supremacy between the Platt wing of the party and a lot of malcontents and disgruntled Republicans, whose battle cry has een, "Anything to beat Platt!" last night's primaries shows that the anti-Plattites have been routed, horse, foot and fragoons. In fact, they have been buried so deep that it is doubtful if they will ever know what a resurrection is like.

The contest centred about the nomination for member of Assembly. The Platt candidate is George W. Kavanagh, a young manufacturer from Waterford, while the anti-Platt candidate is John L. Henning, a lawyer of Saratoga. Kayanagh has been a candidate for the nomina-

date is John L. Henning, a lawyer of Saratoga.

Kavanagh has been a candidate for the nomination twice before and been defeated. When Gov. Morton made up his staff he appointed Kavanagh an aide-de-camp.

Henning was a candidate for the nomination to the office of Surrogate of the county last fall, but failed, and ever since then he has been determined; to get even with the Senator. Edgar T. Brackett and the Hon. William W. Worden, Platt leader in the county, whom he neld responsible for his defeat. He silled his fortunes with those of Charles C. Lester, who is a candidate against County Judge James W. Houghton for Supreme Justice to succeed Justice John R. Putnam, whose term will soon expire, and the Henning-Lester combination, backed up by the Daily Saratogian, which Lester and his family control, loudly proclaimed that they would down the Platt outfit, and end forever the rule of the Easy Boss in Saratoga county.

Personalities and recriminations have been freely induined in, and the Platt crowd made no bones of saying that whatever delegates Henning had in the County Convention would be the result of bargain and sale. It was along these lines that the contest was fought, and no one would predict the result of the primaries. Early this morning the result throughout the country became known. Kayanagh will have ninety-three delegates in the Convention, and Henning thirteen. In Saratoga Springs, Henning's own town, he got only three of the sixteen delegates. This, of course, insures Kayanagh's nomination, and a momination in this country is equivalent to an election.

, and a nomination in this county is equivaent to an election.

Socialist-Labor Ticket in Connecticut. HARTFORD, Aug. 2.-The Socialist-Labor party held its State Convention at Weller's Hall last night, forty-eight delegates being present. The nominations were: Governor, John present. The nominations were: Governor, John A. Morton. Bridgeport; Lieutenant-Governor, Edward Chatfield, Waterbury; Secretary, F. Serrar, New Haven; Treasurer, Henry Laine, New Haven; Comptroller, Henry Powell, West Hartford. The Congressmen were nominated as follows: Samuel Joseph, Hartford; Timothy Sullivan, New Haven; Howard McDonald, Bridgeport. Last year's platform was adopted. Report showed that there are 2,600 voters in the party in this State.

Complicated Fusion Scheme in Texas, DALLAS, Tex., Aug. 2.- The gold-standard Democrats of Texas yesterday, at Corsicana resolved not to put out a State ticket. They resolved not to put out a State ticket. They appointed a committee to confer with the Populists and the Republicans, looking to a fusion, Republicans and gold-standard Democrats to vote for Populist State and county tickets and the Populists to vote for the McKinley electors. The conference also appointed delegates to the Indianapolis Convention to consider the putting out of a national gold-standard Democratic ticket.

McNulty and Towns to Start the Ball for

Bryan. It seems that Senator P. H. McNulty and Mirabeau L. Towns, "the poet lawyer," have become impatient over the dilatoriness of the regular Democratic leaders in Brooklyn in arranging for an endorsement of the work of the Chicago Convention. They have called a select gathering of free-silver men at Mr. Towns's office to-morrow afternoon, and may decide to open the Bryan campaign at once, without awaiting the action of the State Convention.

Kentucky Silver Paper Busponds, Louisville, Aug. 2.-The Sunday Oritic, weekly paper which has been supporting free weekly paper which has been supporting free sliver here, suspended publication to-day. Its editor, D. E. O'Sullivan, is trying to raise subscriptions to start a daily paper. Another element of the Silver party is soliciting funds to start a daily, and both it and O'Sullivan have chosen the same name and the same date, Aug. 16, to begin publication.

BRYAN MAKES A STATEMENT.

He Will Not Promise Office to Any One During the Campaign.

LINCOLN, Neb., Aug. 2.-Mr. Bryan's attention was called to-night to a statement published in a Chicago newspaper this morn-Attorney-General, in the event of his election, Gov. Altgeld. He immediately dictated the following and handed it to the United Press

"In order to answer once for all in regard to rumors of promises of places. I desire to say that I have not directly or indirectly promised any office of any kind to any person whomsoever and shall not during the campaign promise any

MR. BRYAN DATE AT CHURCH. Me Heard Only Half of the Service-Those Speeches Take His Time.

LINCOLN, Neb., Aug. 2 .- Mr. Bryan occupied his usual place in the First Presbyterian Church this morning. He arrived when the service was nearly half over, and he went directly home afterward. In the afternoon Mr. and Mrs. Bryan and the children went for a drive in the family one-horse surrey, and to-night Mr. and Mrs. Bryan spent several hours in the library undisturbed.

Mrs. Bryan has lately taken to answering the correspondence, leaving Mr. Bryan to devote simself almost wholly to the work of preparation for the speeches that he will make during the coming trip. Pending the official notifica-tion of his nomination Mr. Bryan, on the suggestion of Senator Jones, has, as far as possible avoided all heavy political discussions in his speeches. It is much more difficult for Mr. Bryan to speak without bringing in politics than it is to make an ordinary campaign address, and since the word to go slow came from Senator Jones he has chafed considerably. Immediately after the meeting in New York,

and possibly on his way East, he will plunge nto the consideration of the issues of the campaign, and he will be prepared to speak several times a day if necessary. Mr. Bryan does not know when Congressman Bland will arrive, but he will be here several days in advance of Mr. and Mrs. Bryan's departure. Mr. Bryan will consult with the free-silver

advocate on the silver portion of his New York address, and he will advise with Bland as to the best course to pursue with reference to the dif-ferent planks of the Chicago platform. It is Mr. Bryan's understanding that Biand will take part in the ceremony of notification. By the United Press. Lincoln, Aug. 2.—Mr. Bryan's brother, who seldes in Omaha, was his guest at dinner.

resides in Omaha, was his guest at dinner.

A number of telegrams from Congressman Sulzer and other Tammany leaders congratulating Mr. Bryan on his endorsement by the Tammany Executive Committee have been received by the nominee. The statement made by Senator Thurston that Mr. Bryan is in the pay of owners of silver mines is to be answered. The person who will reply to them has not been named, but he will probably act by authority of Mr. Bryan.

MADE "JACK" ROBINSON ANGRY.

Sliver Debate with ex-Gov. St. John. BIRDSBORO, Pa., Aug. 2.-The first public debate on the money question in the campaign in Pennsylvania was held yesterday at the Joanna Heights camp-meeting grounds. Ex-Gov. St. John of Kansas, the well-known probibitionist, who has cultivated, to use his own words, "as great a love of free silver as he has hatred of free rum." was pitted against Congressman Jack " Robinson of Delaware county, a soundmoney advocate. The debate was marred by an incident which created some excitement near the close of the meeting.

The managers and most of the attendants at the "Temperance Assembly" which is in session at the camp grounds are sympathizers with ex-Gov. St. John's silver wing of the Prohibition party, and Mr. St. John had a majority of the audience in his favor. Their sympathies led to an outbreak against Robinson which angered the fiery Delaware county Congressman. Mr. Robinson turned to ask whether the sil-Ar. Robbisson turned to ask whether the sirver-mine owners would not reap a profit of 47 cents on every silver dollar they would have minted under a free-coinage act.

"No, sir," was the response. "The value of silver will at once go up to a parity of 18 to 1 with gold after the passage of a free-coinage act, and the buillion will be worth as much as the minted money."

the minted money."

Robinson immediately retorted: "No man can shove such a fallacious theory down my

The remark was greeted by a burst of hisses. Indignant at such treatment, the angry Congressman demanded fair play.

"I came here by invitation," he said, "and should be accorded gentlemanly treatment."

His wrath did not altogether die out with the hisses, for he declared with his fist in the air that no single man would dare come before him and hiss. None volunteered to be knocked down, however. Robinson's anger was applauded by the majority of the audience, and the tide turned in his favor. This was ex-Gov. St. John's first appearance as a silver campaigner in Pennsylvania.

HINRICHSEN'S CONFIDENCE.

The Popocrat Thinks His Side Will Carry Every County in Illinois. CHICAGO, Aug. 2.-Chairman W. H. Hin richsen of the Democratic State Central Committee came to the city to-day to attend the meeting of the committee to-morrow. It is said that at this meeting the committeemen supposed to favor the gold standard who have not already resigned will be dropped and members known to be supporters of the Chicago platform substituted. Mr. Hinrichsen is confident that the regular Democratic ticket will carry the regular Democratic ticket will carry svery county in Illinois and nearly every township. He so expressed himself in a talk to-day. The County Committee has perfected plans for the reception of Mr. Bryan on his trip East. The committee will meet him on the train some distance outside the city. So far as now known, Mr. Bryan will make no speech while here. The County Committee at its meeting last night endorsed Bryan, Sewall, Altgeld, and the State and national platforms.

KANSAS DEMOCRATS.

It Is Said They Will Endorse the State Nominees of the Populists.

TOPEKA, Kan., Aug. 2. - Ex-Senator John Mar in, a leader of the Kansas Democracy, is au thority for the statement that the Democratic State Convention at Hutchinson on Tuesday will nominate no candidates for State officers. but that action will be deferred pending the action of the Populist Convention, which will meet at Abilene on Wednesday, and that the nominees of the Abilene Convention will then nominees of the Abilene Convention will then be endorsed by the Democrats. As to Presidential electors, according to Mr. Martin, there will probably be a fair division, representation being given to each of the sev-eral political organizations favorable to free silver legislation. The electors so nominated will be instructed to vote for Bryan and for either Sewall or Watson, whichever has the majority of votes cast in the United States.

NEBRASKA POPULISTS.

They Favor Pusion with Silver Democration Binte and County Offices.

LINCOLN, Neb., Aug. 2.-Populist district conventions were held in a majority of the counties of Nebraska yesterday. The sentiment, almos without exception, was favorable to fusion with without exception, was favorable to fusion with
the free-silver Democrats both on State and
county offices. The Populist State Convention
will be held at Hastings on Wednesday.
A straight ticket will be nominated, and later
the Democratic State Committee, if the plans
are asthered to, will endorse it in its entirety,
the Populists agreeing, of course, to support
frysn and Sewall on the national ticket.
In one or two counties the Middle of the Road
members of the party made mild protests, but
any sort of a revolt is improbable.

BRYAN'S MINNESOTA MAN. Thomas D. O'Brien of St. Paul Will Or ganize His Campaign There.

Sr. PAUL, Aug. 2 .- A telegram was received from Hope, Ark., last evening from Senator Jones, Chairman of the Democratic National Committee, appointing Thomas D. O'Brien of St. Paul as Minnesota member of the Demo-cratic National Executive Committee. Senator Jones cannot remove Daniel W. Lawier from the Democratic National Committee, but he gets around Lawier by appointing O'Brien on the Executive Committee, and turning the work of organizing the State over to him.

BRYAN'S CAUSE IN CANTON

AN EFFORT TO DISCREDIT M'KIN-LET IN HIS HOME. Brynn Club Formed After Much Adver

tising-newall's Name Nearly Caused of Bow and He Was Ignored Thereafter-Brysa to Pass Through Canton CANTON, O., Aug. 2,-Major McKinley did not go to church to-day, according to his custom, but remained at home, leaving only for his regular daily call upon his mother, and the customary fair weather drive with Mrs. McKinler. There has not been a move in forty-eight hours in this city by the Republicans in relation to the national campaign, but there has been a desperate play made by the opposition in that time, which it is now almost certain was instituted upon promptings from the Western managers of the Popocrats. This play was the organization of a Bryan free sliver club.

The formal call and the week or ten days of agitation for numbers were regarded at first as the efforts of the small minority of residents of Canton who have not enlisted in the McKinley cause to do something for the preservation of the old name of the time-honored Democracy now usurped by a new school, but a few hints dropped by some of the speakers and a little investigation since make it look like a plan on the part of the national Popocratic management to show up a strong silver sentiment in the home of McKinley.

As a forerunner a travelling newspaper cor-

respondent, ostensibly the representative of a syndicate of well-known papers, came to the city presumably to write of the campaign from McKinley's home. His reports, however, were confined to elaborations upon atrest-corner oratory. Timed well with the date of the meeting, his stories were sent out telling of the silver sentiment and the probability of the sliver sentiment and the probability of a spontaneous uprising for organization and systematized work. Incidentally various men were quoted on broad sliver declarations and the interence made that the speakers had up to date been Republicans. Then meeting night came and with it sufficient crowd to furnish inspiration to those whose work was to boom it abroad. One of the chief promoters inadvertently

One of the chief promoters inadvertently dropped the romark that organization was all that was necessary, and that the munitions of campaign would be forthcoming in due season, and that Stark county would be particularly favored in this respect. Then realizing that he was saying too much, Mr. McGregor, for the venerable editor was the speaker, breaking off suddenly, said, "That is, Stark county probably will be thus favored," and closed his argument.

ment.
Several other speakers intimated very strongly that special help would come from the Democratic Committee. This aroused the Populists, and Alien Cook, an old Coxy Lieutenant, wanted to know if an exclusively Democratic affair was proposed. If it was, and Sewall was to be folsted upon the club, he and his friends wanted to get out. The more rabid men tried to talk Cook down, but he was persistent, and Sewall was not again mentioned, the club being named in honor of Bryan alone, and congratulations being sentto the Nebraskan only.

and congratulations being sent to the Nebraskan only.

It was noticeable that none of the old-time Democratic contributors and workers of prominence were present. But Populists and Prohibitionists were much in evidence. The speakers were those whose declarations proved them to have been members of the Populist, Prohibition, or Democratic party for years. The last address of the evening by C. Turin Meyer was a fair sample. He denounced the payment of bonds issued during the Cleveland Administration in gold, concluding:

"It is the most infamous act of anarchy and repudiation that the world has ever witnessed. The anarchy of capital despoiling the poor is worse than traseon. It is treason to humanity; and the man who advocates this great act of repudiation and spolistion, no matter if it's Mc-

pudiation and spoliation, no matter if it's Mc-Kinley or Market street Hill. is guilty of a treason as reprehensible and as infamous as that of Jeff Davis himself."

The natural curiosity of people to see Mr. Bryan and the crowd which is naturally at-tracted by a visit of another Presidential nom-ine will probably be the next card played in tracted by a visit of another Presidential nom-ince will probably be the next card played in this endeavor to show opposition to McKinley in his own home. Mr. Bryan will pass through here on his way East next week. A big crowd will probably be at the station to see Bryan.

THE BRYAN HEADQUARTERS. Chairman Jones's Choice Is Either Wash-

ington or Chicago. WASHINGTON, Aug. 2.-Senator Jones of Arkausas, Chairman of the National Democratic Committee, arrived in Washington at oon to-day, and, after a few hours' rest at his residence, went down to the headquarters of the Democratic Congressional Campaign Comretary Gardner, who had come to town from his

ummer home at Laurel, Md., to meet him. To-night Senator Jones said that he was not yet ready to announce the Executive Commitee although it was possible that he would name several of the members in a day or two He had practically made up his mind as to some of them, but he did not care to disclose them to night.

Perhaps the Executive Committee would not be announced, or at any rate completed, until the full meeting of the National Committee in location of the national eampaign headquarters would also be selected, and in all probabil-

ity the selection would not be made before that The Senator's choice for headquarters was about evenly divided between Washington and Chicago. He recognized great advantages in each and some disadvantages. There was no Democratic morning paper of prominence in Chicago, and the others there, he said, were dis honest; worse, in fact, than in any city in the

conntry. He thought he could rely on the dissemination of fair reports from Washington, for, although no Democratic paper is printed here, the newspapers of the national capital were fair and the machinery for news dissemination

was unequalled. With regard to the insinuation of W. L. Peck in the Atlanta Journal yesterday that he (Chairman Jones) had expressed a willingness to sacrifice Sewall and urged Watson's nomination. the Senator said to-night that it was utterly

He had received a note from Peck saying that

Watson's nomination would be the salvation of Bryan, and he has not answered it or paid any attention to it. He had been in St. Louis during attention to it. He had been in St. Louis during the Populist Convention, but had never gone to any of its sessions nor participated in its work. The Senator says he sees nothing but indications of Democratic success wherever he goes, and that far from any possibility of the reaction the "Goidburgs" (as the Senator called them, are relying on the free-silver cause continues to show a healthy and rapid growth.

Those people who are looking for a reaction get their information from the same sources that announced a year ago and up to a few months ago that the silver lunatics were all dead or dying.

These assurances in New York papers, he months ago that the silver lunatics were all dead or dying.

These assurances in New York papers, he further said, put the goldbugs off their guard; they quit working, and the free-silver organization, which deted practically from the passage of the Sherman Repeal acc, kept diligently at work with the field to themselves. If the goldbugs wanted to sit back and await a reaction, so much the better, and he was willing they should try it.

Senator Jones says he will remain in Washington all the week. It is expected many prominent Democrats will meet him during that time, including Senator Gorman, who usually spends Mondays in town.

It is predicted that soon after seeing Senator Gorman, Chalriman Jones will announce the Executive Committee, or part of it, and that a decision will be reached as to whether an Advisory Committee will be needed this year.

TAMMANY'S MUDDLE.

Leaders Discover that "There Are a Lot of Gold Men" Who Won't He Led. The failure of the Tammany Hall Executive Committee at its meeting on Friday to call a meeting of the General Committee or to arrange for a meeting to ratify the Chicago nomination has caused comment. Seventy-one members of the Executive Com-

mittee voted for a resolution ratifying the nomination of Bryan and Sewall. The General Committee of the organization is composed of 15,000 votere. Its meetings are public.

"We want to see what can be done with the State Convention before we have any big metings," said a Tammany leader yesterday. "and we don't want to do anything that will encourage the free-sliver men too much. Especially we do not wish to encourage the free-sliver idea. for we don't want to eat our words on the financial issue utered in the Seratogs platform of last June. I tell you, too, there are a lot of gold men in Tammany Hail, and things don't look at all rosy. You may have noticed that this is a bad year for sign painters. I have only seen one Bryan and Sewall banner in the city, and that is in the annexed district. It may be a sign of sconomy on the part of Tammany Hail that no more banners and transparencies are shown, but I believe it is lack of enthusiasm." ination of Bryan and Sewall. The General

Winifred Airen, 26 years old, of 24 Forsyth street, was responsible for three ambulance calls from the Hudson Street Hospital between 20 clock Saturday afternoon and 9 o'clock Saturday avening.

She was also suffering from hysteria, aggravated by too much liquor. She was first taken from the New York Dispensary at Centre and White streets.

After rymaining a short time at the hospital she was discharged. She turned up within an hour at Park place and Washington street. Surgeon Brown took her to the Church street police station.

There is no matron there, so she was taken to the Cak street station. She was in such bad condition at 9 o'clock in the evening that the Serceant called the ambulance again.

She caimed down after this and slept all night. Magistrale Wentworth discharged her in the Centre Street Police Court yesterday morning.

FRENCH CLUB'S SHOW RAIDED.

Only One License for the Once Separate Premises in Which It Took Pince While Capt, Chapman and his detectives Welsh, Cadell, and Waters, were strolling through the Tenderloin last evening, they heard sounds of revelry in a hall in the rear of the restaurant and saloon of Tripault and Mac-

Mahon at 470 and 472 Sixth avenue. They entered the place and found it equipped as a music hall, with a stage and scenery. A man in the uniform of a French soldier wa singing a very animated song.

About fifty persons were witnessing the performance, most of them drinking. These had sandwiches before them. The police were in-formed that the assembly was a meeting of the Club Artistique et Musicale Française on the occasion of a benefit to M. Rouolthe. "This must stop at once," said Capt. Chapman. Emile Gormer of 454 West Twenty-sixth street, Secretary of the club, and Paul Ponot of 249 West Forty-inth street were arrested.

The police discovered that Tripault and Mrc-Mahon had kept separated, though adjoining, establishments before the massage of the Raines law. Since the law went into effect they have consolidated, cut a hole through the wall, and done business under a single license.

KILLED WHILE FLYING A KITE. A Ten-year-old Lad Falls from the Boor of a Five-story Tenement. Philip Filkenstein, 10 years old, of 699 First avenue, went to the roof of his residence to fly kite early last evening. The cord dropped from his hand and he chased it to the roof of 693 First avenue. He made a grasp at the cord just as it was dropping off the edge of the gutter of the five-story tenement. The boy lost his balance in reaching for the cord and tell to the yard, breaking his neck. The fail killed him instantly.

BOTH THE DEMOCRATS AND PUB

emocrate Claim the State by 40,000 at its Legislature 51 to 11.—The Populists May Preparations for Franci on Grand Scale Maye Seen Made by Democrata, BIRMINGHAM, Ala., Aug. 2.-On the eve of the State election both the Democratic and Fuslopist leaders are expressing confidence in viatory to-morrow. The sixty-six countles in the State have been heard from at the headquarters of both parties, and from them figures of what the majorities will be have been made up. Capt. Johnston, the Democratic candidate for Governor, returned to-day from the interior, and he gave out a statement that he expected to

carry the State by at least 40,000 majority. He said that many men, without regard to the currency, and Republicans who favored the free coinage of silver, will vote for him and his ticket; that the majority of the voters were in favor of good government and protection to property interests. He expects the Democrate o get two-thirds of the Legislature, and for them to stand firm on the Chicago platform. Nathaniel L. Miller, Secretary of the State

Democratic Campaign Committee, this afternoon gave out his latest figures on what he expects the results to be. He estimates the Democratic majority at 40,000 to 50,000, and eightyone out of a hundred of the legislators. William Vaughan, Chairman of the State Republican Executive Committee, says that Goodwyn will certainly win, and that the Fusionists

will have the Legislature on joint ballot. If

the Democrats do their counting-out act, he says, the Legislature will sit down on them. He says the Fusionists will get forty out of the sixty-six counties. He condemns the Democrats for sending out forged circulars attempting to make the negroes turn from the Fusion party. Vaughan further saarts that Goodwyn is stronger than Holb was two years ago, and that nearly every white

county will return a majority for him. The Democratic papers to-day claim that Johnston will get sixty counties out of the sixty-six.

Though publicly boasting that they will win, an underfeeling seems to prevail in Democratic ranks that a hard pull will have to be made for the Legislature. In this Jefferson county, the largest in the State the Fusionists have made their greatest Reuben Kolb, Chairman of the County Populite Executive Committee, says that the Fusion ticket will surely win. It is charged by the Populites that preparations for fraud on a grand scale has been made by the Democrata, and they aver if they are carried out they will throw their strength to the McKinley and Hobart ticket in the November election, going so far as to organize clubs for the Republican can-

didates If the Democrats lose the county tickets in Jefferron and Tuskaloosa counties, which are not so certain either way, the Democratic majority in the Legislature will be only four, and other countles are liable to reduce that figure. Congressman A. T. Goodwyn has gone to his home to participate in the elections. At Bessemer, in Jefferson county, where 1,800 have registered, 1,200 of whom are anti-Democrats, trouble is expected, as the Commissioners have allowed only one voting box.

Other places in the State report probable trouble. Returns of the election will be received at headquarters in Birmingham. ENGLAND'S WAR PROBLEMS.

An attempt will be made, it is said, to hold

the box and prevent fast voting on both sides.

What Her Ships Might Have to De in the Channel and the Mediterranean. WASHINGTON, Aug. 2.-The chronic question of how England is to beat the combined fleets of France and Russia is once more coming up in discussions, stimulated, apparently, by the current naval manosuvres. The Pall Mall Gazette debates it, and not over hopefully. One difficulty seems to be the geographical position of France, with coasts both on the Channel and the Mediterranean, giving her interior lines, and helping her chances of connecting with Russian naval forces, advancing from the Baltic and the Black Seas. Another difficulty for England is that of sealing up hostile ports under modern conditions, by a blockading fleet, which Capt. Mahan has set forth. To do this requires a very superior force on the blockading side; and if the blockaded fleet once gets out, it may have

the whole ocean before it. Pondering this subject the Pall Mall Garette concludes that, in a war with France, if Russia joined in the struggle, there would be three main British fleets; a powerful one at Malta; a second strong force at Plymouth, guarding the Channel, and a third fleet, smaller, with its base at one of the Baltic islands. The enemy would have four main fleets, one at Brest, another strong one at Toulon, and two smaller fleets in the Baltic and the Black Seas.

fleets in the Baltic and the Black Seas.

If the Toulon and Brest fleets simultaneously leave their bases and steam for a meeting point, somewhere west of Gibraitar, they must, since the distances are in their favor, succeed in effecting a junction before the English fleets can reach them. From Toulon to libraitar is only 705 miles, whereas it is 200 from Maltia to the same point. From Breat to Gibraitar is 200 miles, as against 1,044 from Plymouth. Then the French fleets, having united, can turn on either of the two English fleets, should these steam in pursuit, and crush them in detail. The French will be between our forces in superior strength to either, and there can be little doubt as to what the result would be.

One conclusion might be that, in the case sup-

can be little doubt as to what the result would be.

One conclusion might be that, in the case supposed, there is no special reason why the British
fleets should remain at Malta and Plymouth, as
if on the defensive, leaving their adversaries to
effect their junction. The authority quoted
seems to indicate that the best plan in the case
suppresed is to seal up one of the French fleets,
say that at Brest, and to do this "we must inecrease our battleship fleet till we have enough
vessels for a close blockade; or five to the enmy's three."

Thus the old solution of the problem in building
more and still more ships is again reached, and,
added to the heavier vessels for the line of battie, there must be cruisers enough to protect
British commerce leat the British islands should
have their food supply cut off. lie, there must be crulsers enough to protect British commerce leat the British islands should have their food supply cut off.

This last matter, by the way, has called out, during the present year, a rather remarkable proposition from Gen. Rice. This is to establish granaries in the islands capable of holding half a year's supply of wheat for 36,000,000 people. This period is fixed because it is assumed that at the end of it the country could begin to supply itself from the soil. The sum which Gen. Rice would set apart for the purpose is \$140,000,000 to start with. He would invest \$110,000,000 to start with. He would never so say to avoid keeping that amount each year, so as to avoid keeping that amount each year, so as to avoid keeping the grain too long.

This is rather a costly method of providing for a contingency, but it illustrates a current British propensity to speculate on the chances of England's being defeated at sea by a come bination of fleets against her, and of the results that might then be expected.
